ABOUT ME

Results-oriented aspiring full-stack developer with hands-on experience building and deploying real-world web applications using the MERN stack. Experienced in developing scalable backend systems, managing data efficiently, and creating responsive, user-focused interfaces. Possesses a solid foundation in machine learning concepts. Focused on building practical solutions and continuously improving through hands-on development.

SKILLS

- Web Development: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Bootstrap
- Languages: C++, Python, JavaScript, SQL, PHP
- Databases: MongoDB, MySQL
- AI & Machine Learning: Regression, Classification, Feature Engineering, Model Evaluation, NumPy, Pandas, Matplotlib, Seaborn, OpenCV
- Tools: Git, GitHub, Postman

PROJECTS

Money Lending – Loan Management Web Application ([Link](#))

- Developed a client-based full-stack Loan Management System to manage borrowers, lenders, and multi-lender loan workflows.
- Implemented dynamic interest calculation with monthly, quarterly, and 6-month cycles, ensuring accurate financial tracking.
- Designed lender-level settlement and interest record system, supporting real-world repayment and due management.
- Built CSV report generation and responsive UI using React.js and Node.js for efficient data handling and usability.

Stream Together – Real-Time Web Application ([Link](#))

- Developed a real-time video streaming platform where multiple users can join a room and watch YouTube videos together.
- Implemented real-time communication using Socket.IO for synchronized playback and in-room chat between users.
- Built the front-end using React and managed state to ensure seamless user experience.
- Gained hands-on experience in real-time application architecture, collaborative features, and live messaging integration.

WORK EXPERIENCE

AcmeGrade – Web Development Intern (Nov 2024 - Jan 2025)

- Contributed to building and maintaining web applications using React and PHP.
- Gained practical experience in both front-end and back-end development.
- Improved understanding of component-based design, state management.

Thrive Industry – Web Development Intern (June 2025 - Aug 2025)

- Designed and developed 2–3 responsive websites focusing on performance and user experience.
- Worked with MySQL for database management and data handling.
- Collaborated on integrating front-end interfaces with dynamic back-end logic.
- Strengthened skills in debugging, optimization, and end-to-end web development.

EDUCATION

Diploma in Computer Engineering

Vidyalankar Polytechnic

Expected 2026

HSC

V.G Vaze College Mulund

2023

SSC

D.S High School

2021
